

Manufacturer of special vehicles

Moving From Malaysia Across The Globe

Terberg terminal tractors from Terberg Tractors Malaysia are robust vehicles used to haul containers around some of world's busiest ports.

Built with Malaysian engineering expertise and precision, these vehicles have met the toughest standards of ports in over 15 countries, including Malaysia, Singapore, Indonesia, China, Australia, New Zealand and Africa. Our vehicles are constantly moving to new and more distant destinations, the next being the Middle East.

Terberg terminal tractors is the product of a smart partnership and technical collaboration that began in 1999 between Tractors Malaysia and Terberg Benschop B.V. of Holland, Europe's leading manufacturer of special vehicles.

The stamp of quality for our vehicles comes from a Malaysian plant that specialises in heavy vehicle fabrication and the manufacture of components and equipment under licence from internationally renown Principals.
