

BI DRUM WATER TUBE

TW Series

Capacity : 10 - 100 tons/hr
 Pressure : Up to 100 BarG
 Steam Temp. : Up to 510 deg. C

DUO Series

Capacity : 2 - 20 tons/hr
 Pressure : Up to 20 BarG
 Steam Temp. : Saturated

BI DRUM WATER TUBE

VICKERS HOSKINS TW AND DUO SERIES ARE OUR SOLUTIONS FOR INDUSTRIES USING BIOMASS ENERGY SOURCES. THEY ARE SUITABLE FOR : Palm oil mills, wood and glove manufacturing industries, biomass power plants, cogeneration facilities, and food processing industries.

They are best in class for safety, durability, efficiency, operational ease, and continuous operational reliability. Many of our systems have been running for decades.

PACKAGED OIL AND GAS STEAM GENERATORS

WB Series

Capacity : 5 - 31 tons/hr
 Pressure : Up to 20 BarG
 Steam Temp. : Saturated

RF Series

Capacity : 1 - 5 tons/hr
 Pressure : Up to 20 BarG
 Steam Temp. : Saturated

PACKAGED FIRE TUBE

VICKERS HOSKINS WB SERIES IS A HIGH CAPACITY "WET BACK 3 PASS BOILER, AND THE RF SERIES IS A LOW CAPACITY BOILER OF 'REVERSE FLAME' ARCHITECTURE. BOTH SYSTEMS ARE SUITABLE FOR : Hotels & resorts, pulp & paper industries, food processing plants, rubber, textile and packaging industries, cogeneration / petrochemical plants, district cooling and marine facilities, and oil refineries.

Works best as a main auxiliary boilers or as standby quick-response units.

NC Series

Capacity : 3 - 50 tons/hr
 Pressure : Up to 50 BarG
 Steam Temp. : Sat / Superheated

DS Series

Capacity : 5 - 100 tons/hr
 Pressure : Up to 100 BarG
 Steam Temp. : Up to 510 deg. C

PACKAGED WATER TUBE

OUR DS SERIES IS A BI DRUM WATER TUBE PACKAGED BOILER SUITABLE FOR : Petrochemical plants, textile industries, pulp & paper industries, cogeneration plants, and sugar & oil refineries. Used as primary mainstream auxiliary boilers.

OUR NC SERIES ARE HEAT RECOVERY STEAM GENERATORS (HRSG) SUITABLE FOR : Gas turbine exhaust heat recovery and industrial incinerator flue gas exhaust recovery. Recognized for reliability and high efficiency.

PACKAGED OIL AND GAS BOILERS

BIOMASS & HEAT RECOVERY STEAM GENERATORS

Advanced Energy-Generating Systems Since 1978
